Professional Experience

Data Analyst - Freelance

April 2020/Present

- Developed and maintained SQL queries to extract, manipulate, and analyse data for database management, KPI development, and performance tracking.
- Conducted Exploratory Data Analysis (EDA) on datasets containing 250,000+ records, identifying trends, correlations, and actionable insights to support business strategy and data-driven decision-making.
- Collaborated with local charity organizations to distribute donated COVID-19 supplies to orphanages and retirement homes, contributing 90+ hours of community service.

Sales Rep - Sportsmans Warehouse

Jan 2019/March 2020

- Generated and managed R80,000+ in daily revenue while supporting a portfolio of 120+ clients, contributing to overall sales and business performance.
- Conducted quarterly inventory audits to ensure data accuracy, inventory integrity, and compliance with reporting standards.
- Monitored sales trends and KPIs, analyzing performance data to identify trends, gaps, and opportunities to improve business outcomes.

Accounts Administrator - Truworths

June 2017/Sept 2018

- Maintained and analyzed financial data on a weekly basis, managing accounts payable and accounts receivable while ensuring accuracy and data integrity.

- Prepared and maintained financial records and reports to support cash flow management, budgeting, reconciliations, audits, and tax-related reporting requirements.
- Implemented and maintained office policies and procedures to strengthen operational efficiency, internal controls, and compliance with company standards and requirements.

Human Resources Assistant – Gauteng Department of Education

June 2016/June 2017

- Collaborated with cross-functional teams to analyse HR-related data and provide management with actionable insights into the effectiveness of HR policies, procedures, and workforce initiatives.
- Collected, cleaned, validated, and prepared HR data for management presentations, reporting, and disciplinary hearings, ensuring accuracy and consistency.
- Combined and analyzed multiple data sources to identify trends, patterns, and key findings, contributing to a 10% improvement in KPIs and supporting data-driven business decisions.

Education

University of Cape Town - Data Analysis

Developed practical expertise in data quality monitoring and auditing, SQL programming, statistical analysis, RStudio, database management, data source identification, and analytical reporting. Applied these skills to conduct data-driven analysis, identify trends and insights, and support informed decision-making in professional environments.

Richfield Graduate Institute of Technology - Business Administration Services

Developed practical knowledge and applied skills in business administration, process improvement, resource management, and operational efficiency. Gained experience identifying operational inefficiencies, collaborating across departments, engaging with clients and customers, and implementing effective business processes and procedures to support organizational objectives.
